PG & Research Department of English

A report on Mahabalipuram - Field Study

Date: 25/07/2023

Purpose: Field Study

PG & Research Department of English visited Mahabalipuram with 38 UG&PG Students with 4 staff members on 25/07/2023. The field trip aimed to provide students with practical exposure to the historical, cultural, and archaeological significance of Mahabalipuram. The visit focused on studying the Shore Temple, beach, and various ancient sculptures, contributing to research and academic understanding. Students noted intricate carvings and structural details for their research projects.

The students proceeded to observe various sculptures and monolithic structures, such as the Pancha Rathas and Arjuna's Penance. Students analysed the symbolic representations and artistic techniques used in these sculptures.

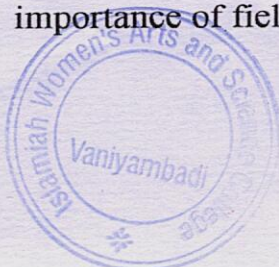

Educational Outcomes:

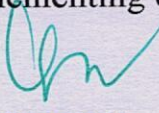

Enhanced understanding of South Indian temple architecture.

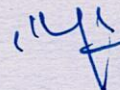

Practical exposure to historical research methodologies.

Improved observational and analytical skills in identifying cultural symbols and their significance.

The field Study to Mahabalipuram was a highly educational experience. It provided a blend of historical knowledge and practical research exposure, enriching the students' academic journey. Feedback from students and staff was overwhelmingly positive, highlighting the importance of field visits in complementing classroom learning.

ACDEMIC YEAR 2023-2024

PROGRAM REPORT

HERBAL GARDEN VISIT

TOPIC OF THE EVENT: SIDDHA MEDICINAL PLANT GARDEN VISIT

DATE: 12 September, 2023 VENUE: Siddha Medicinal Garden, Mettur

PG Department of Biochemistry visited SIDDHA MEDICINAL PLANT GARDEN, METTUR.

On 12.7.2023. As per syllabus, our students have Phytomedicine as a subject and UG students have their project work. Since medicinal plants has more potential to treat many disorders it will be helpful for our students. III B.Sc., Biochemistry 44 students and 4 staff members visited the siddha Medicinal plants garden at Mettur. The herbal garden maintains 700 plants (400 herbs, shrubs & 300 medicinal trees).

Vaniyambadi.

To,

The Secretary and Correspondent
Islamiah Women's Arts and Science College,
Vaniyambadi.

Through

The Principal
Islamiah Women's Arts and Science College,
Vaniyambadi.

Subject: Permission Letter

Respected madam

I am writing this letter to seek your permission for Biotechnology Laboratory visit to ISLAMIAH COLLEGE (AUTONOMOUS). The visit would be done on 17/10/2023. This visit might help the (50) students in attaining good knowledge in desired fields making it easy for them to understand the practical working of the machinery.

I ensure all students will definitely maintain the decorum at the place. I eagerly await your positive response as I have to inform all the students about the same.

Thanking you.

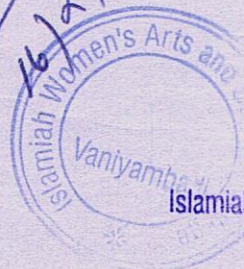

Yours faithfully,

A. Ragamathbee
16/10/2023.

Lab Visit Report

The Department of Biotechnology, Islamiah Women's Arts and Science College, Vanampadi, organized a one-day educational (Lab) visit to Islamiah College (Autonomous), Vanampadi, on 17th October 2023, for B.Sc. 1st semester Student. A total of 50 students and 1 faculty (Teachers-in-charge) were involved in the group.

Overview of Lab Visit:

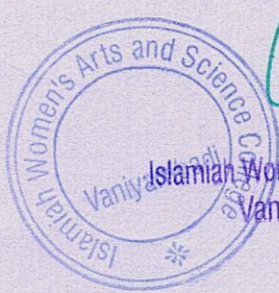

On arrival at Islamiah College (Autonomous), Prof. Dr Jaffer Ali Sir from the Department of Biotechnology gave us a warm welcome and assisted us in accomplishing all the formalities at the entrance. He spared some time out of his busy schedule to introduce us to everyone in his laboratory. After the introductory session, Ph.D. research scholars from Prof. Dr Jaffer Ali Sir lab enthusiastically invited our students to show different instruments and experiments in their laboratory. Both our professors and students were ecstatic to see the Islamiah College laboratory structures. Initially, Dr Farooque Sir gave an overview of all the laboratory and the purposes of the tools and equipment used in the laboratory. They then switch to a different instrument, a centrifuge machine. A centrifuge machine is an instrument that employs centrifugal force to separate different fluid constituents. After learning the significance and operation of the centrifuge, our students were really enthusiastic and asked many queries. They described Tissue culture technique process used in their laboratory in straightforward language. Students learn the importance and principle. After touring the lab, the students were seated for a discussion with Dr. K. Riyaz Sir. With his engaging voice and

charismatic attitude, motivates us during this session. By outlining the possibilities open to Biotechnology students, he motivates the students to pursue research. Additionally, he inspired the students by going over some basic Biotechnology concepts. He concluded by wishing everyone, including the instructors and students, a prosperous future.

PG DEPARTMENT OF INTERIOR DESIGN & DÉCOR

FIELD VISIT - YELAGIRI

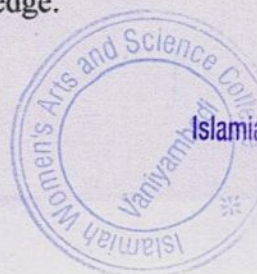

REPORT

On July 24, 2023, 102 undergraduate students from the PG Department of Interior Design and Decor embarked on a field visit to Hotel Zeenath Taj Garden and AGS Holiday Resort in Yelagiri. The purpose was to provide practical exposure to interior design concepts and explore landscape architecture. At AGS Holiday Resort, students were exposed to various interior design styles, from traditional to contemporary. They actively engaged with industry professionals, gaining insights into design principles applied in commercial spaces. This interactive session facilitated knowledge exchange and inspired students for future projects.

Subsequently, at Zeenath Taj Garden, students explored landscape architecture and gardening techniques. They learned about plant selection, layout planning, and maintenance strategies. The well-manicured gardens served as examples of effective landscape design principles, fostering an appreciation for the relationship between built environments and nature.

The field visit was a valuable experience, providing students with practical insights that will inform their future endeavours in the field. It emphasized the importance of hands-on learning and inspired students to creatively integrate design elements in their work. Overall, the visit was a catalyst for professional growth, reinforcing the significance of practical exposure alongside academic knowledge.

DEPARTMENT OF ZOOLOGY(2023-2024)

Report on Industrial Visit to Tilapia Research Centre, Pochampalli on 12.03.24

On 12.03.24, a group of 50 students from the Department of Zoology undertook an industrial visit to the Tilapia Research Centre located in Pochampalli. The visit aimed to provide students with practical insights into the techniques and processes involved in aquaculture, particularly focusing on the breeding and cultivation of Tilapia fish.

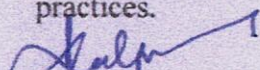

Upon arrival at the Tilapia Research Centre, the students were warmly welcomed by Dr. Somu, a renowned expert in aquaculture. Dr. Somu initiated the visit by providing an overview of the Tilapia Research Centre's objectives and its contribution to the field of aquaculture.

During the visit, Dr. Somu meticulously explained the various techniques and processes involved in Tilapia fish farming. He elaborated on the breeding methods, feeding practices, water quality management, disease control measures, and sustainable farming practices adopted at the research centre. The students were given a comprehensive understanding of the lifecycle of Tilapia fish and the factors influencing their growth and development.

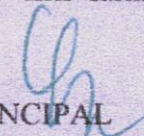

Furthermore, the students were taken on a guided tour of the research facilities, including the fish hatcheries, breeding ponds, and water treatment units. They had the opportunity to observe firsthand the different stages of Tilapia farming and interact with the research staff to gain practical insights into the day-to-day operations of an aquaculture research centre.

Conclusion:

The industrial visit to the Tilapia Research Centre proved to be an enriching and educational experience for the students of the Department of Zoology. Dr. Somu's expertise and engaging presentation style made the complex concepts of aquaculture accessible and understandable to the students. The visit not only broadened their knowledge of aquaculture practices but also inspired them to consider the potential of a career in the field of fisheries and aquaculture. Overall, the visit was a resounding success, thanks to the valuable insights shared by Dr. Somu and the hospitality extended by the staff at the Tilapia Research Centre. The students left the research centre with a newfound appreciation for the intricacies of aquaculture and a deeper understanding of the importance of sustainable fish farming practices.
