Report

Visit to Chandru's Organic and Natural Vermicompost farm

All III UG students (40) from Department of Chemistry along with Department of Zoology visited Vermiculture organic farm at Chandru's Farming, Nilavur, Yelagiri on 19 th November 2022. The visit included practical lecture on preparation of Vermicompost from initial stage like processing of cow dung to final packing and exporting of Vermicompost and also preparation of panchakavya and fish oil. The trainers over there explained the process in a very simple manner so that all our students got plenty of information regarding vermiculture. At last they offered Vermicompost, panchakavya, fish oil at offer prize for staff and students. After the visit our students were highly motivated to prepare Vermicompost at low cost at their home itself and also interested to construct vermiculture pit in our college campus.
