B. LED LIGHTS

LED lights offer numerous advantages over traditional tube lights, including superior energy efficiency, extended lifespan, and cost-effectiveness. By consuming less electricity and requiring minimal maintenance, they not only reduce operational expenses but also align with sustainability objectives. Institutions can make a wise investment by transitioning to LED lights, cutting down on electricity consumption, and minimizing their environmental footprint.

The amount of storm water the catchment will produce can be determined with the following formula.

$$Q = 2.8 \times C \times I \times A$$

- **Q** : the design peak runoff rate, or the maximum flow of storm water the system will be designed for (in liters per second) **C** : the runoff coefficient .
- **I** : the rain fall intensity at the time of concentration read from the chosen IDF curve; **A** : the surface area of the catchment area (in ha (10,000 m²))

Rainwater Harvesting on campus (litter/Season) $RWH = 131 * 59 * 9487 / 100 = 7,33,250$ Liters

C. HERBAL GARDEN

The college launched a Herbal Garden initiative, where students were actively involved in the cultivation and maintenance of herbal plants. This hands-on experience not only empowered students but also contributed to the college's role in fostering environmental consciousness. By preserving a green campus and promoting the cultivation of herbal plants, the college played a pivotal role in nurturing a sustainable and eco-friendly environment.

D. "PEN"- DRIVE

The throwaway culture of today has disconnected us from the emotional value once associated with pens and pencils. These tools were once symbols of learning, but now they're often seen as mere plastic waste. To combat this, college installed drop boxes for collecting empty pens and markers, aiming to raise awareness among school and college students about the environmental impact of our consumption habits.

"PEN"- DRIVE

- ❖ To Reduce, Recycle, Reuse collection of used empty pens has been initiated by Enviroclub for all students and staff
- ❖ Workshop for Students organized to make Paper pencil using waste paper and Newspaper
