PREAMBLE

The Research and Development Cell of IWASC was established in the year 2018, which aims to nurture research culture in the College by promoting research in newly emerging and challenging frontier areas in all Arts and Science departments. The main elements of its planning activity consist of the vision, mission, and goals described below. It encourages the students and faculty to undertake research in newly emerging areas including multidisciplinary fields. This enhances the general research capability of budding technocrats by way of participating in conferences, seminars, workshops, project competition, etc.

VISION

The vision of the IWASC Research and Development cell is to find novel ideas, to develop new projects, provide research-oriented services and to overcome the research obstacles to reach the innovative milestones by promoting research-based activities on emerging trends, keeping in view essential multidisciplinary facets.

MISSION

The mission is to mould the future researchers with basic and experimental aptitude both in quantitative and qualitative research in terms of innovations and development of new technologies applicable to the field of Arts and Science streams, and to initiate and develop the advancement of knowledge to favour the promotion of quality research and to form MOUs with reputed

industries, institutions, universities and research laboratories to acquire research exposure and innovative ideas to excel in the field of research. Establish innovation center and become a hub for entrepreneurial endeavours.

OBJECTIVES

- ❖ To create awareness and opportunities in Research and Development among the faculty and students and to create Research and Development atmosphere in every department.
- ❖ To promote research, innovation and intellectual knowledge.
- ❖ To integrate teaching and research components service to the society.
- ❖ To develop socially relevant researches helpful to the human values and excellence.
- ❖ To develop network with industries, universities and other institutions of higher learning for better exposure and knowledge sharing
- ❖ To encourage staff members and students to take up research projects sponsored by governmental bodies
- ❖ To organize workshop, seminars and periodical faculty development training program to improvise the knowledge, skills related to promotion of research.
- ❖ To conduct periodic meetings on current topics in research and its relevance to provide insights into various research activities across the globe.
- ❖ To provide regular updates (national and international) on the upcoming or new research schemes, research ventures, research policy by government and private sectors and encourage filing patents that bring fame to the institution and nation.
